THE WORLD'S
FIRST CERTIFIED
FRESH WATER
BIODEGRADABLE
GLITTER BRAND

COSMETIC 
Bio-glitter[®]
PURE

Cosmetic Bioglitter® PURE OPALESCENT, IRIDESCENT & OPAQUE GLITTER – ALUMINUM FREE GLITTER REINVENTED

Cosmetic Bioglitter® PURE, originally launched in 2019, was the world's first TÜV 'OK Biodegradable WATER' certified glitter range. Which is considered the highest level of independent certification for fresh water biodegradability in the world.

Due to the physical properties and chemistry of the raw materials used in Bioglitter® it is not possible to re-create the structure of a traditional plastic iridescent glitter. Therefore, we have had to take a completely different approach. Our soft focus natural color range was our first offering in this novel type of glitter. 'Opal', a mother of pearl effect and 'Vivid', a strong metallic effect. 'Opaque' is a development, that shows a matt effect.

Aluminum Free – All Bioglitter® PURE products do not have a reflective aluminum layer. This introduces a range of color effects unique to Bioglitter®. Being aluminum free, they do offer enhanced formulation compatibility and chemical resistance, particularly in high or low pH formulations, such as in liquid and solid soaps.

With no aluminum content they are suitable for use on lips in the US.

Cosmetic Bioglitter® PURE are also industry award winning:

2018 – Gold award for innovation at
'in-cosmetics global'.

2019 – Gold award in the 'Green
and Sustainability'
category in
PCHI China

ECO CREDENTIALS

- TÜV Austria, 'OK biodegradable WATER' Certified
- Biodegrades quickly and safely in the natural environment
- Derived from natural materials rather than plastic
- Ethically and sustainably sourced raw materials

COSMETIC SENSORY

- A NOVEL range of glitter effects never seen in the industry before
 - Natural – Soft focus effect
 - Opal – Opalescent 'mother of pearl' effect
 - Vivid – Strong color effect
 - Opaque – Matt effect
- Soft to touch

COSMETIC SAFETY

- Globally cosmetic compliant
 - EU, USA, CHN, JPN, AUS, KOR, CAN
 - FDA Cosmetic compliant for use on lips*
- Extremely low heavy metal content
 - <0.5 ppm Antimony (total content analysis)
- Allergen Free

OTHER BENEFITS

- Aluminum free
 - FDA Lip compliant
 - Superior formulation compatibility e.g. suitable for use in liquid and solid soap
- Carmine/cochineal free
- Suitable for Vegetarians and Vegans

APPLICATIONS

- Dry
- Water based
- Solvent based
- Oil based
- Anhydrous based
- Soap and surfactants
(see technical info for more detail,
performance by product line can vary)

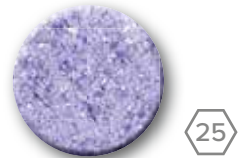

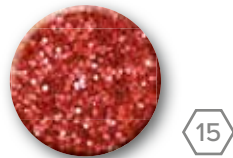

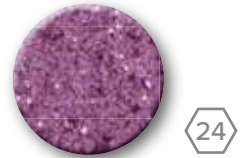

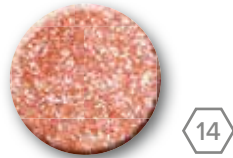

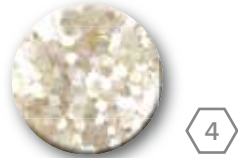

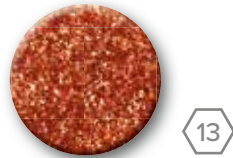

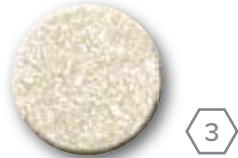

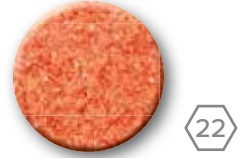

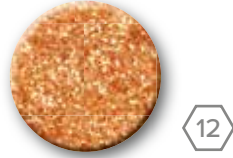

Bioglitter® is based on plants
and is independently proven
to biodegrade in natural, fresh
water environments.

PRODUCT CODING

From the table above add the 'SIZE' code to the 'SHADE' code
e.g. Cosmetic Bioglitter® PURE Red 0.008" = 1610-83910-2hex

* Commission Regulation (EU) 2023/2055 compliant.

For further information see product data sheet.

MARKET APPLICATION

COSMETIC

Cosmetic grade

for color cosmetics, skin care, hair care, personal care, events & carnival

METALLIC EFFECT

Reflection Effect

- Certified – TÜV, OK biodegradable WATER (V2)
- ISO14851/2 testing by OWS, Belgium (V1)
- Bright metallic effect

IRIDESCENT / OPALESCENT / OPAQUE EFFECT

Refraction-Reflection Effect (Aluminum Free)

- Certified – TÜV, OK biodegradable WATER
- Natural – Soft focus effect
- Opal – Opalescent 'mother of pearl' effect
- Vivid – Strong color effect
- Opaque – Matt effect

HOLOGRAPHIC EFFECT

Reflective-Diffraction Effect

- Certified – TÜV, OK biodegradable WATER
- Holographic Rainbow Effect

DECO – DECORATIVE

Technical grade

for coatings, printing, fabrics, horticulture, art & decorative applications

METALLIC EFFECT
