

A NATURAL SOLUTION FOR SKIN INFLAMMATION, REDNESS AND IRRITATION

THE POWER OF MEDITERRANEAN EXTRACTS FOR SENSITIVE SKIN

Skin is the first protection of our body to external and environmental agents and attacks. Nevertheless, skin becomes more and more sensitive as time goes by, therefore itching, irritation and redness easily occur. Today more than 50% of people is affected by the "Sensitive Skin Syndrome".

INCI NAME: Capparis Spinosa fruit extract, Opuntia ficus-indica stem extract, Olea Europaea (Olive) leaf extract, Maltodextrin

COUNTRY OF ORIGIN: Sicily - Italy

PARTICULAR SIGN: Natural Origin Index (ISO 16128):1
Sustainable ingredient from by-product

SKIN SAVE™ holds the power of three Mediterranean extracts in one ingredient:

- Polysaccharides from **Opuntia ficus-indica** to provide moisturization and repairing effect;
- **Olive** biophenols for soothing action;
- **Caper** flavonoids for desensitizing effect.

RECOMMENDED USAGE CONCENTRATIONS

LEAVE ON: 2-3%
RINSE-OFF: 0,5-1,5%

RESULTS OF CLINICAL STUDY AND COSMETIC BENEFITS

REDUCTION OF SKIN ERYTHEMA

SKIN RELIEF

ANTI-ITCHING EFFECT

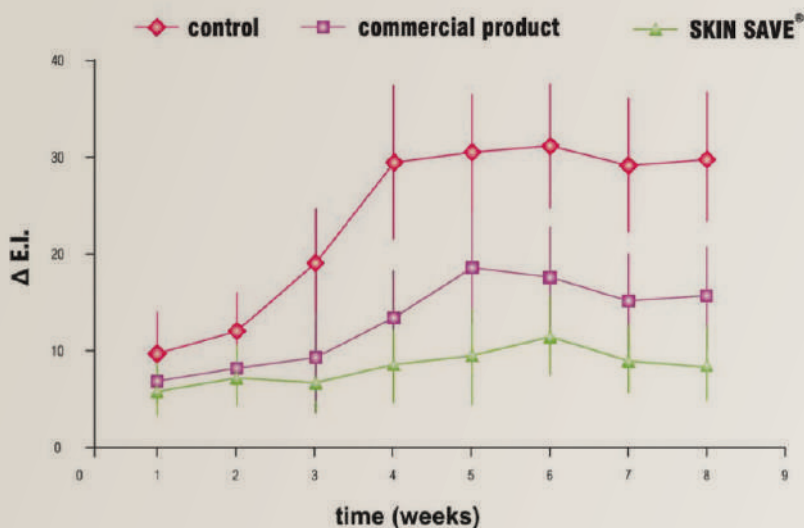

Contrada Furera (Zona Industriale Ovest) 95032 Piano Tavola, Belpasso (CT) - Italy

CLINICAL STUDY ON RADIATION-INDUCED SKIN IRRITATION

SKIN SAVE™

SKIN SAVE™ was significantly effective in preventing and reducing radiotherapy induced skin reactions in comparison with not treated group and commercial product.

APPLICATIONS & FORMULATIONS

BABY CARE

SUN CARE

AFTERSHAVE

SCALP CARE

INSECT AND JELLYFISH STINGS

ACNE

DERMATITIS AND PSORIASIS

INFLAMMAGING

GENTLE BABY WASH

PHASE	INCI/PCPC	%
A	Sodium cocoyl glutamate	1
	Decyl glucoside	7,5
	Cocoamidopropyl betaine	10
	PEG-80 Glyceryl cocoate	4
	Disodium EDTA	0,1
	Glycerin	2
	PEG-120 methyl glucose dioleate	2,5
	Phenoxyethanol, caprylyl glycol, potassium sorbate, aqua, hexylene glycol	1
	Aqua/water	65,7
B	Aqua/water	3
	Maltodextrin, Capparis spinosa fruit extract, Olea Europea (olive) leaf extract, Opuntia ficus- indica stem extract	0,5
C	Parfum/Fragrance	0,5
	Sulfated castor oil	1,5
D	Citric acid (sol. 10%)	0,7

SOOTHING AND REPAIRING AFTERSHAVE

PHASE	INCI/PCPC	%
A	Aqua/Water	82,4
	Capparis spinosa fruit extract, Olea Europaea (olive) leaf extract, Opuntia ficus-indica stem extract Maltodextrin	2
	Butylene glycol	4
	Hydroxyethyl acrylate/Sodium acryloyldimethyltaurate copolymer and squalane and polysorbate	3,5
B	Acrylates/C10-30 Alkyl Acrylate Crosspolymer	0,2
	Hydrogenated Polyisobutene (and) Poly-methylsilsesquioxane (and) Vinyl Dimethicone/ Methicone Silsesquioxane Crosspolymer (and) Ethylene/ Propylene Copolymer	3
	Dicaprylyl ether	1,1
	Butirospermum(shea)parkii butter	0,5
	Corylus avellana (Hazelnut) seed oil	0,5
	Tocopheryl acetate	1
	Polymethyl Methacrylate	0,25
	Aluminium starch octenylsuccinate	0,1
	Phenoxyethanol, caprylyl glycol, potassium sorbate, aqua, hexylene glycol	1
C	Sodium hydroxide	0,05
D	Parfum/Fragrance	0,4
