Cosmetics &
Personal Care**

BEAUTY WITHIN

SUDARSHAN

ADDING VALUE

Sudarshan is a global supplier of high-end pigments with a diverse range of products ranging from organic, inorganic and effect pigments to performance colorants, pearlescent pigments and speciality chemicals.

Our quality colorants offer outstanding performance, brilliant color and special effect to the cosmetic and personal care industries.

With over 70 years of manufacturing experience, well-equipped modern laboratories and a team of skilled technologists, we are able to support the cosmetics and personal care industry with customized products, taking a partnership approach, providing advanced beauty solutions.

Operational Excellence

Accredited with ISO 9001:2015, ISO 14001:2015, ISO 17025 & ISO 45001:2018 certifications our quality, environment & safety systems are of international standards. Our manufacturing sites at Roha & Mahad are EFCI GMP certified for manufacturing of mica based pigments and iron oxides for use as cosmetic ingredients. All improvement programs are driven through 6-Sigma methodology. Pigments are compliant with Halal & Kosher guidelines.

Our pigments are compliant with heavy metal specifications and globally published regulatory norms.

- US FDA Code of Federal regulations (CFR) title 21, part 73
- European Cosmetic (EC) Regulation 1223/2009
- Japanese standards of cosmetic ingredients (JSQI 2006)
- Chinese Safety and Technical Standards for Cosmetics (STSC 2015)

Sustainable Mica Sourcing

Sudarshan operates a zero-tolerance policy on child labour. We employ no workers below the age of 18 years at any of our sites, be they in India or anywhere else in the world. We demand that all our vendors and partners also adhere to this policy.

TO YOUR PRODUCTS

COSMETICS PIGMENTS

PEARLESCENT PIGMENTS

Soft elegance

Prestige pearlescent pigments offer very subtle optical appearances and are well suited for visual effects that refresh and create a younger looking skin. The range varies from super fine to sparkling lustre colorants providing numerous possibilities to the formulations.

Sumicos™

Outstanding performance

Sumicos range of pigments brings brilliancy and shimmer to distinguish products in the personal care and color cosmetics space. This lustrous range includes products based on natural and synthetic mica technology which perfectly complement the softer effects offered by our Prestige range of products.

Sumicair™

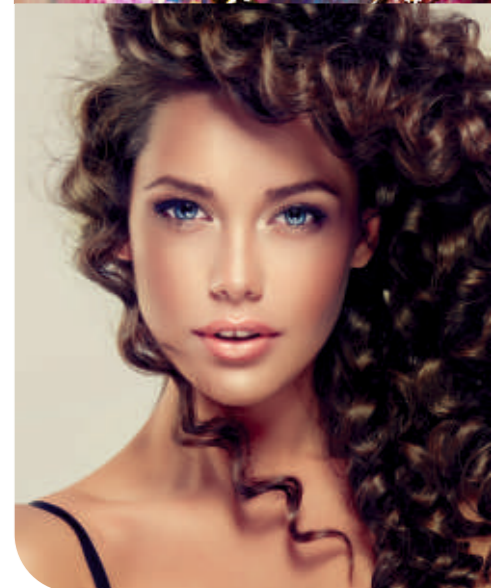

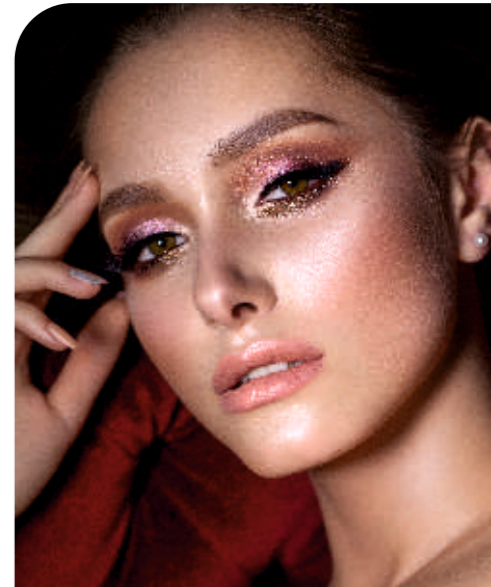

Functional fillers

Sumicair functional fillers offer improved slip, enhanced skin adhesion, balanced shine and coverage to a variety of cosmetic formulations. These fillers are prepared from highly pure natural mica flakes and specially processed for enhanced sensory.

Sudacos™

Organic pigments and dispersions

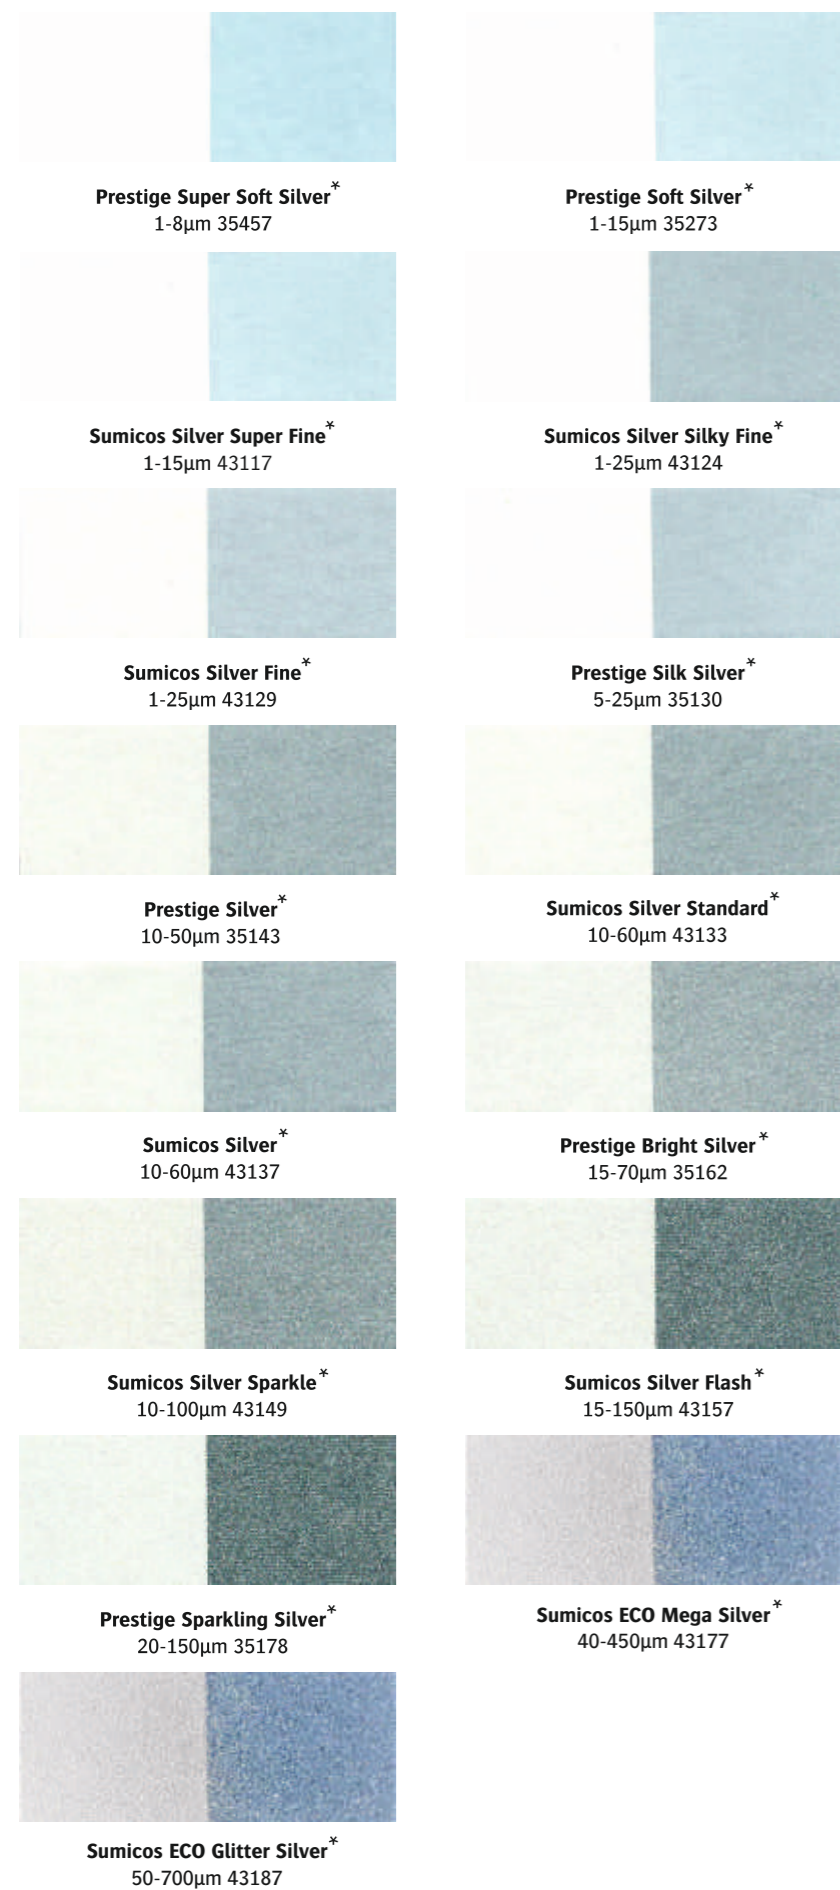

Sudacos organic pigments offers highest chroma, superior color consistency, and excellent dispersibility. These Sudacos range products are specially manufactured with highest purity to meet global regulatory requirements.

SILVER

Silver Pigments

Natural mica platelets coated with titanium dioxide, offering soft sheen to sparkle/glitter special effects.

+ - Contain curcumin | # - Contain FD&C Red 40 | Δ - Contain D&C Red 7

Note:

1) Pigments containing carmine and ferric ferrocyanide can be sensitive to excess heat, UV light & extreme pH. Special care must be taken when used in aqueous formulations.

2) In USA: a) Ferric ferrocyanide containing products are prohibited for use in lip products. b) D&C Red 7 containing products are prohibited for use in eye area products.

3) FD&C Red 40 is not an approved colorant in Japan, and therefore 35472 is prohibited in Japan for cosmetic applications.
