

PATENTED

Capilia Longa™ Make your Hair Sprout Again

The hair care active from plant stem cells that reactivates the hair growth, density and quality to obtain healthy and beautiful hair

- Plant peptides to increase hair growth, density and quality
- Delays hair loss and restarts the hair cycle
- Density increase in hair, eyebrows and eyelashes
- Growth factors from Turmeric (*Curcuma Longa*)

Curcuma Longa, known as 'Turmeric'

It is a tropical and subtropical plant whose rhizomes grow indefinitely and have excellent regenerative properties.

Origin and mechanism of action

Turmeric plant

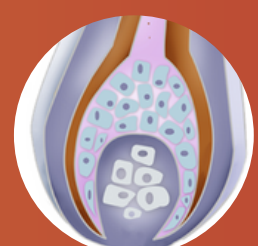

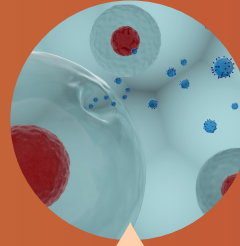

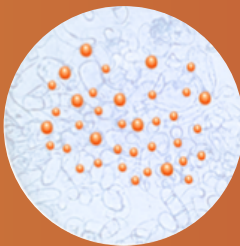

Obtaining turmeric rhizome's stem cells

Plant signalling peptides generation and concentration

Applying Capilia Longa™ to reactivate the Dermal Papilla

Rhizomes
